Yuen Method is a technology composed of science, medicine and energy. It is created by Dr. Kam Yuen, and is a powerful energetic healing technique. You can instantly (within a minute) identify the root causes of pain & stress and immediately relieve pain & life problems. No exercise, no herbs, no tools, and no physical contact are needed. It is also independent of faith. It can also be combined with any kind of manual therapy and produces a wonderful effect.

The human brain and the central nervous system work together like a computer system. Pain arises when an accumulation of too many unneeded programs slow down our computer system and caused energy congestion. Yuen Method is a simple way to find the root cause of any life issue, to delete and rewrite our computer program (for Deletion and Correction) and to remove the sabotages that hold us back from life and to optimize performance in all aspects of life.

It enables individuals to enjoy optimum health, prosperity, success in life, harmony in relationships and personal progress and growth. It can also increase your energy, and maximize your potential to reduce the aging process of the body, mind, and spirit in a quick way. At the end of the course we will experience our new super-speed computer system & much improved and enhanced perception towards life and self.
